**Subject:** MN Chamber of Commerce Hydroponics Research on Wild Rice and Sulfate  
[MN Chamber hydroponics rpt.pdf](#)

Hi everyone –

Attached is a report that the MPCA received from the Minnesota Chamber of Commerce that documents research they undertook on the effects of sulfate on the growth of wild rice. MPCA staff will review and consider this information along with the MPCA Wild Rice Sulfate Standard Study results and other available information as we develop our preliminary recommendations regarding the wild rice sulfate standard.

Many thanks, and have a great weekend!

Shannon
